This submission responds to a Request for Additional Information dated April 14, 2015, which identified two independent expenditures for which 24- or 48-hour reports had not been filed. Both independent expenditures identified in the RFAI were less than \$1,000 and were the first independent expenditures made in the elections to which they applied. As such, neither met the threshold for reporting on 24- or 48-hour reports.
